SPIROS ANGELIKOPOULOS

Senior Data Scientist — Analytics, Experimentation & Statistical Modeling

Aristeidou 33, Chalandri, Athens • 6977865866 • spirosangelikopoulos@gmail.com

PROFILE

Senior Data Scientist with 7+ years of experience in analytics, experimentation, and statistical modeling using both **frequentist and Bayesian methods**. Track record of designing and running **A/B tests**, building scalable data pipelines and dashboards, and translating complex analysis into **actionable business insights** for stakeholders across product, marketing, and client teams. Comfortable partnering with engineering on data foundations, and increasingly using **AI-assisted and agentic workflows** to scale and automate analysis.

PROFESSIONAL EXPERIENCE

Persado – Athens **Oct 2022 – Present**

Senior Data Scientist, Analytics *Apr 2024 – Present*

- Designed, executed, and analyzed **A/B tests** end-to-end to evaluate messaging and product variants, applying both **frequentist and Bayesian statistical methods** to guide client and internal decision-making.
- Designed and optimized **data pipelines in PostgreSQL and Snowflake**, reducing reporting latency and enabling faster decision-making across product and client teams.
- Built **dynamic Sigma dashboards** to improve stakeholder visibility into product impact.
- Acted as a statistical thought partner internally and with clients, advising on **experimental design, logistic regression, and Simpson's paradox**, and helping teams apply sound statistical rigor.
- Automated ad-hoc analytics using **R scripts**, incorporating **AI-assisted/agentic workflows** to accelerate turnaround on client insights.

Data Scientist, Analytics *Oct 2022 – Mar 2024*

- Built foundational experience in experimentation, data pipelines, and client-facing statistical analysis

Business Intelligence Analyst | *IQVIA – Athens* **Jul 2021 – Sept 2022**

- Built and maintained **data warehouses and ETL pipelines** using SQL Server and SSIS, supporting analytics across large healthcare datasets.
- Created interactive **Power BI dashboards** with diverse data visualizations to support business stakeholders.
- Created automated text-based reports using **SSRS**.

Analyst-Statistician | *IRI Worldwide (currently Circana) – Athens* **Feb 2019 – Jul 2021**

- Built and maintained **SAS/SQL databases**, ensuring reliable input for predictive models.
- Led **statistical modeling and regression analyses, including Bayesian elements**, to evaluate consumer behavior and market dynamics.
- Delivered actionable insights under tight deadlines, contributing to revenue growth strategies for major FMCG brands.

EDUCATION

Master's in Applied Mathematics and Physical Science, National Technical University of Athens (NTUA) — Oct 2015

Majors: Applied Calculus and Advanced Statistics • Grade: 8.62

TECHNICAL SKILLS & LANGUAGES

- **Statistics & Experimentation:** A/B testing, frequentist & Bayesian inference, hypothesis testing, regression analysis, experimental design
- **Databases / SQL:** PostgreSQL, Snowflake, SQL Server, SAS/SQL
- **BI / Visualization:** Sigma, Power BI
- **Programming:** R (advanced); Python (working knowledge, increasingly using AI-assisted/agentic tools for Python-based analysis); Excel (advanced); SSIS; SSRS
- **Languages:** English (C2), German (B1)
